Valkyrie Enterprises LLC has a part time opportunity for a Quality Manager. Responsibilities will include overall management of the company's Quality Management System to ensure compliance with the ISO 9001:2008 standard. Quality Manager will oversee review and updates of the Quality Manual, Quality Procedures, and Work Instructions, as well as maintain and update all supporting documentation. Will schedule and manage both internal and external audits; develop and implement an internal training program for auditors, managers and technicians and process corrective actions and opportunities for improvement.

The successful candidate will have a Bachelor's degree in an engineering field as well as certification by American Society for Quality as both a Quality Manager and a Quality Auditor. Position requires prior experience implementing ISO 9001 and successful external registration. Experience applying Lean Principles and Six Sigma Variation Reduction is required. Additionally, candidates must be certified Six Sigma Green Belt and have over 20 years experience managing technical services and processes.
