Valkyrie Enterprises LLC
Attn: Mr. Wesley Foy
Quality and Safety Manager
4460 Corporation Lane, Suite 200A
Virginia Beach, VA 23462

Dear: Mr. Foy

The Valkyrie Enterprises LLC Quality Manual, Revision 2, dated 31 March 2011 and associated quality procedures have been reviewed to ensure the requirements of the NAVSEA Technical Specification 9090-310F, Appendix C and fiscal year 2011 NAVSEA Standard Item 009-04 were met. Based on this adequacy review, your documented quality system is acceptable for use on Alteration Installation Team (AIT) Navy contracts. This letter cancels and supersedes NAVSEA acceptance letter, Ser 04XQ-AIT-08-003 of 8 Feb 2008.

It is important to note that contractors performing AIT installations must present detailed installation plans and may be required to show NAVSEA acceptance of their quality system to the Naval Supervising Activity (NSA) prior to commencing work. Submittal of Process Control Procedures, invoked by NAVSEA Standard Items, MIL-STDs, Drawings, and Specifications, although an integral part of the Quality Management System are to be submitted and accepted by the SUPERVISOR (e.g., AIT Manager/OSIC). Additionally, contractors that use special processes, such as welding and NDT, must obtain NAVSEA approval for their process procedures as required by applicable process specifications. Your quality system is subject to periodic compliance audits by Government representatives throughout the execution of AIT Navy contracts.

It should be noted that NAVSEA Technical Specification 9090-310F, Para 1.5.17 requires that AITs must resubmit their Quality Management System (QMS) procedures every three years or submit a letter stating that they are working to QMS revision date stated in the NAVSEA acceptance letter. Quality procedures revised for

other than administrative changes must be resubmitted to NAVSEA or SUPSHIP for acceptance.

This letter does not authorize any change in the agreement, the expenditure of funds, or the extension of delivery dates beyond those stated in the applicable contract. The action taken by your firm as a result of this letter is considered to be within the normal administrative matters under the terms of your contract and the job orders awarded thereunder.

The NAVSEA point of contact for Acceptance of AIT Quality Systems to perform work on Navy ships is Ms. Marion Hall, NAVSEA 04XQ1H, at (202) 781-1235.

Sincerely,

For

Paul T. Colahan
Director, Shipyard
